### EXPERIENCE

Level Up in Tech

September 2023 – February 2024

Cloud Engineer (Apprenticeship)

Gained technical knowledge in Cloud engineering and software development practices.  
Worked on various technical projects.

- **Terraform For Newbies** - Asolo project that showcases my usage of terraform and deploying resources into the AWS platform
- **GitHub Actions and Automation** - Asolo project that showcases how creating a pipeline in GitHub actions can be done quicker with detailed files created to execute the pipeline
- **Hosting A Static Website** - Asolo project that showcases how using AWS to host a static website with a custom html page that was in an S3 bucket. This was the first experience I had using AWS
- **SSH Into EC2 Instances** - Asolo project that showcases how to connect my local device to AWS EC2 and using instances and the benefits of using EC2 instances
- **Apache Webserver and CentOS** - Asolo project showcasing the uses of Apache and the AMI CentOS to launch a static website from my first experience with hosting a static website
- **Linux Groups and User Permissions (Ubuntu)** - Asolo project that showcases my first experiences using of Linux and changing permissions for access, readability of different users and how important it is to restrict permissions using an Ubuntu image
- **User data and EC2 Instances** - Shows how to utilize user data in AWS EC2 and how user data reduces the amount of time needed for usage in the CLI because of AWS
- **AWS VPC** - Asolo project that shows the step-by-step configuration of a virtual private network through AWS VPC, although AWS VPC does it for you
- **AWS DynamoDB** - Shows the construction of a DynamoDB table
- **Python Boto3 and Lambda** - Asolo project using the Python Boto3 programming language to create a script for stopping EC2 instances and how to utilize AWS Lambda to run functions that you create
- **Docker Containers** - Showcases my views and a short guide on how to use docker containers using an Ubuntu image

- **Jenkins and Docker**- Showcases how volumes persists data and how using the Jenkins image is accessible and easier to use in Docker using an Ubuntu Image.
  - **Docker Swarm** Showcases the benefits of docker swarm and how to configure a 3-node swarm using an Ubuntu Image.
- 

## NON-TECHNICAL EXPERIENCE

### Teacher

#### NON-TECHNICAL EXPERIENCE

**Teacher** Broward County Public Schools - Fort Lauderdale, FL August 2017 to Present
